**Bydgoszcz University of Science and Technology is proud to invite scientists to participate  
in:**

***1st International Conference „Zero Waste Technologies”***

The conference will be held on June 9-10 2022, in hybrid mode: on-line and stationary in the campus of the Bydgoszcz University of Science and Technology (Prof. S. Kaliskiego 7 St., Bydgoszcz, Poland).

**The aim of this event** is to create a platform for the exchange of knowledge and experience of scientists representing various specializations who share the topic of non-waste technologies.

The conference is interdisciplinary, however, during registration, please indicate one of the session to which the research topic qualifies:

- circular economy
- sustainable animal production technology
- modern methods of waste treatment
- waste as an energy resource
- management of waste biomass
- clean, low-waste and waste-free technologies
- sustainable design
- management of industrial waste/ by-products
- intelligent solutions supporting waste-free technologies
- innovative energy solutions in non-waste technologies
- managing an innovative project in the field of non-waste technologies

As part of the conference, it is possible to present the results both orally and in the form of a poster. Participants will be obliged to send abstracts in English beforehand, which will be published in abstract book. In addition, participants of our conference will have the opportunity to publish an article in the form of a chapter in a monograph and in special issue "Zero Waste Technologies" in the Sustainability journal.

For information on the special issue, please visit:
